Each firm needs **to nominate an administrator for MyINAA**. This person will be responsible for **adding and deleting users for the company**. All administrators will be added to **MyINAA administrator team** and will communicate any addition or deletion through this group.

Add a user to MyINAA

To create a profile, you can request it by sending a message in the MyINAA Administrator Team with the following information:

- NAME
- FIRST NAME
- EMAIL ADDRESS

The profile will be created **within 2 business days**, and the user will directly receive his/her credentials by email.

Remove a user from MyINAA

1) It is important **to remember to delete profiles when someone leaves your firm** to ensure the person will no longer have access to these resources after their departure. The deletion procedure is similar to the addition procedure.

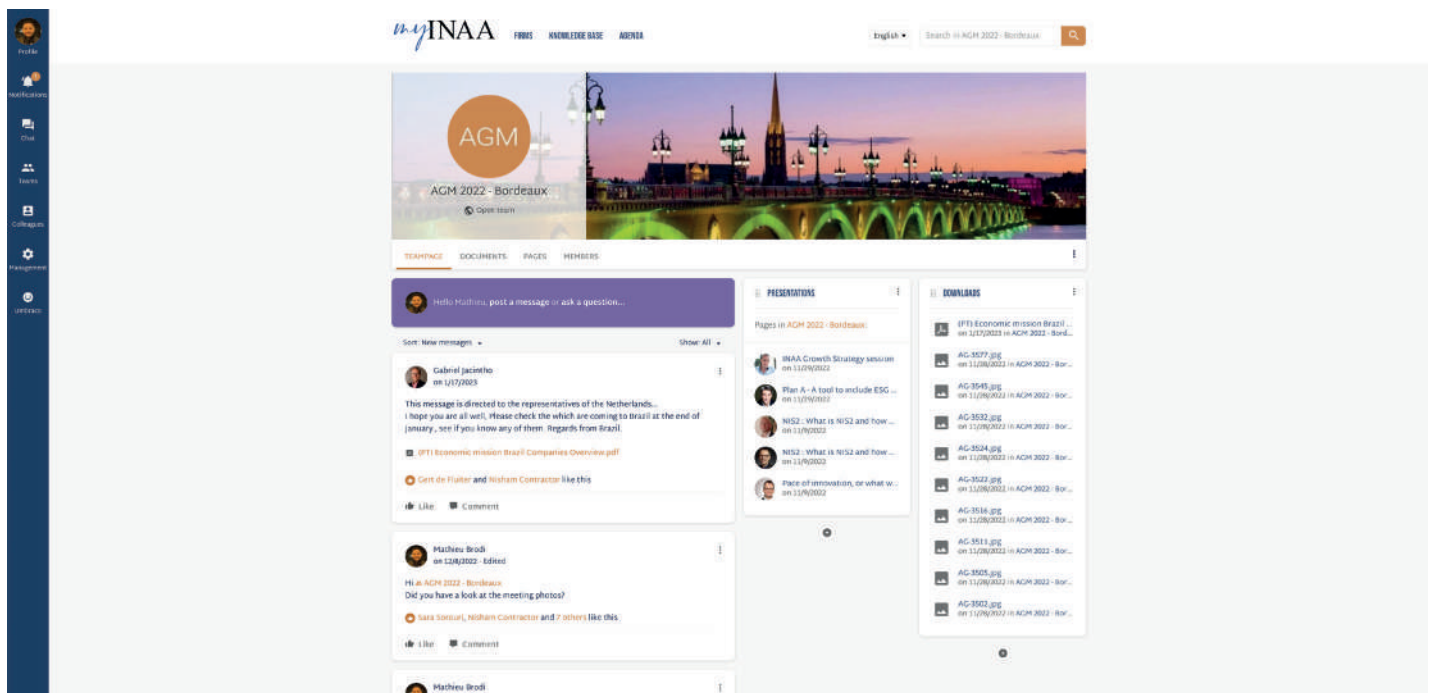

The firm administrator must **send a message in the MyINAA administrator team** with a list of persons that need to be deleted

Please note that INAA is not responsible if a profile has not been deleted after the employee has left.

Create a private team

MyINAA allows you to create your own **private team**, accessible only to your staff.

It allows your firm to have its **own private social network**, a very useful tool to share knowledge, photos and documents within your firm and facilitate exchanges between your employees.

You want to launch your own private team?

Please send a chat to one of the team members: Sara Sorouri, Oussama Abassi, Mathieu Brodi or Nadège Mullier.
